CoinStudio Lite

CoinStudio Lite is a crypto trading tool to help you staying in sane boundaries regarding highs and lows. In the current state, it provides reasonable estimates on 3 levels that you can play out depending on the current market situation. It also monitors and displays the market for each pair and overall market, providing our "Fomo Meter".

CoinStudio Lite does **not** require you to enter your exchange API keys nor does it act in your behalf, you are in full control of your trades.

CoinStudio Lite is constantly enhanced and depends on your feedback. Please visit our Discord at <https://discord.gg/BNnekJ> to get in touch with us and the CoinStudio community!

Search your pairs.
Clicking on one open a card.

Choose your coin

Shows the current overall market situation. FUD means prices drop, FOMO means prices rise.

Estimates history switch.

Exchange selection, currently Binance and will be extended.
